Carp and Pond Fish Culture: Including Chinese Herbivorous Species, Pike, Tench, Zander, Wels Catfish and Goldfish:

3 of 3 review helpful Too technical for me but fills a needed market niche By Elizabeth A Triano This is a neat book It has a lot of diagrams and illustrations and is written in a straightforward style Also it definitely retains its Hungarian character as mentioned in the introduction by Chris Seagrave Authors Horvath and Tamas sorry I don t know how to insert accent marks are or were established experts in this A detailed yet practical guide to the principles and procedures of cyprinid fish farming using traditional and modern pond culture techniques Describes the complete cycle of fish culture from selection and spawning of broodstock through methods of early fry rearing to growing and harvesting A special chapter is devoted to the propagation of other pond fish species including pike tench zander wels catfish Chinese herbivorous species and gold fish Copiously illustra From the Publisher A detailed yet practical guide to the principles and procedures of cyprinid fish farming using traditional and modern pond culture techniques Describes the complete cycle of fish culture from selection and spawning of broodstock through metho
