**By Rod Sutterby, Malcolm Greenhalgh, Simon Farrell : The Wild Trout** wild trout fishing in scotland nowhere in europe offers such a wide variety of fishing for wild brown trout as scotland at one end of the spectrum there is sport to the majority of trout die before their first birthday mortality rates in their first year of life are typically 95 or greater falling to around 40 60 in The Wild Trout:

Wild trout tend to inhabit waters set in wild places Distinctive varieties can be found in many lakes and rivers and all are admired for their streamlined beauty and extraordinary range of sizes and colors Some rare varieties are threatened by extinction due to pollution over fishing and non native stocking With great accuracy Roderick Sutterby illustrates many individual wild trout varieties from Europe and North America Dr Malcom Greenhalgh s illuminating text
