environmental biology of european cyprinids papers from the workshop on the environmental biology of cyprinids held at the university of salzburg environmental biology of european cyprinids papers from the workshop on the environmental biology of cyprinids held at the university of salzburg in Environmental biology of European cyprinids: Papers from the workshop on 'The Environmental Biology of Cyprinids' held at the University of Salzburg, ... in Environmental Biology of Fishes):

Members of the family Cyprinidae dominate most of the aquatic habitats of Europe from eutrophic warm water ponds to mountain lakes. The family comprises generalists and specialists herbivorous, planktivorous and even one piscivorous species, slow moving grazers as well as fast swimming inhabitants of the pelagic of lakes. Due to their diversity and abundance, cyprinids play key roles in every ecosystem in which they occur. Being of little economic importance, however.
