By E. M Grant : Fishes of Australia state of California Department of Fish and Game Marine Fisheries Branch Fish Bulletin No 91 Common Ocean Fishes of the California Coast For its land size Australia has a low diversity of native freshwater fish with only 280 described species this is largely because Australia is a very dry continent Fishes of Australia:

1 of 1 review helpful but flat and dull sorta like the book itself By Vintage man Overall the book was only satisfactory The paper in the book was heavy solid but flat and dull sorta like the book itself Grant writes in an easy lively anecdotal style His photos are mainly of dead fish on a dock or wharf or taken in aquariums or simply cut and pasted and super imposed on a fake back drop Pretty amateurish o pp 480 color illustrations throughout
