5 of 5 review helpful A Fun Read By Duck Lady A fox family recently entered my life and I was fascinated by them This book explained almost all phases of a fox's life food behavior life cycles and relationship to man Although the fox is still a mysterious creature of the night I now feel comfortable having them around me and understand their cries their needs and feel a thrill at the occasional glimpse of these Featuring 57 dramatic color photos this informative and engaging portrait of the fox centers on five species around the world the arctic fox the swift fox of the prairies the desert kit fox the tree climbing gray fox and the ide ranging red fox 5 maps Foxes are creatures of the shadows

feared and hunted through history They are quarry to be chased fur to be sold or a threat to be removed They are loving parents faithful partners and hunters of unmatched skill Foxes are all of these things and so much
