This training book has been developed from the ground up for beginners who know little about Airsoft AEG technology. As part of our Airsoft Technology Self Paced Training Series this book gives an introduction to the basic AK AEG architecture. The primary goal of this book is to explain the various AEG technical concepts in very simple language. The 2012 edition also covers those AK AEGs that use M4 butt stock for hosting battery and FET device we use the APS ASK 208 f. About the Author AirsoftPRESS technical books are written specifically for the do it yourselfer yet are complete enough to be used by professional airsoft gunsmiths. Since 2005 AirsoftPRESS has produced technical books written from hands on experience based on
