3 of 3 review helpful She feels it By JC This book is rough going Maxwell is a talented writer but the story tends to drag periodically throughout the work However this IS the story of a failed business enterprise so one cannot expect an inspiring tale It is filled with frustration dashed hopes and melancholy Despite this grim description I do believe that this is worth your time if you are interested Here are the wonderful islands the strange facts of shark life birds and other fish in vivid brilliance here too the men and the boats and the excitement and the disappointments in the working life Kirkus Reviews Here are the strange facts of shark life the men and the boats and the excitement and the disappointments in the working life
